Experience a **comprehensive purification** process with multiple stages, removing particles, bacteria, viruses, and other harmful substances for crystal-clear water.

ABOUT US

We are a well-known ISO 9001:2008 certified company dealing in RO water purifiers. Our brand name has become most popular & acceptable nation-wise because of outstanding quality & uncompromising components. Our dealer & distributor network ensures perfect after-sales service, which is essential in an RO system.

Aquafresh Industries (India) selects the right combination of components with technical strength and innovation.

Our Mission:

Our mission is simple yet profound: to provide access to clean and healthy drinking water to everyone, everywhere. We believe that clean water is a fundamental human right, and we strive to make this vision a reality by designing and manufacturing state-of-the-art water purification systems that exceed industry standards.

Why Choose

Our water purifiers incorporate the latest advancements in filtration and purification technology to ensure that you get the purest water possible.

With our rigorous quality control measures and durable construction, you can trust that your Puriflow water purifier will perform flawlessly for years to come.

COPPERZinc[™]
CU TECHNOLOGY

WATER PURIFIER

ANTIMICROBIAL PROPERTIES

Copper has natural antimicrobial properties that can help kill harmful bacteria and microbes present in water, making it safer to drink.

IMPROVES DIGESTION

Copper-infused water is believed to stimulate the gastrointestinal tract, aiding in the digestion process and promoting better absorption of nutrients.

BRAIN HEALTH

Copper is involved in the synthesis of neurotransmitters, which are essential for proper brain function. Consuming water infused with copper may support cognitive health and improve brain function.

G+Series Premium water purifier goes beyond just providing clean drinking water; it's a comprehensive solution for ensuring the health and well-being of you and your loved ones.

CONVENIENCE

With a water purifier installed in your home or office, clean water is always readily available at the turn of a tap. There's no need to wait for water to be boiled or rely on store-bought bottled water.

CONTINUOUS FILTRATION

Continuous filtration is a cornerstone feature of the G+Series Water Purifier, ensuring that clean and safe drinking water is always available whenever you need it.

IMPROVED WATER QUALITY

The G+Series Water Purifier utilizes a sophisticated multi-stage filtration process to remove a wide range of contaminants and impurities from water.

DIGIPRO
UV + UF WATER PURIFIER

WATER PURIFIER

HIGHLY EFFECTIV

UV water purifiers are highly effective at disinfecting water by neutralizing harmful microorganisms such as bacteria, viruses, and protozoa.

FAST AND EFFICIENT

UV water purification is a fast and efficient process, capable of treating large volumes of water quickly. Once installed, the purifier can disinfect water on demand, providing immediate access to clean drinking water without the need for lengthy treatment times or waiting periods.

LOW OPERATING COSTS

UV water purifiers have relatively low operating costs compared to other forms of water treatment, such as boiling or chemical disinfection. Once installed, the main ongoing expense is periodic replacement of the UV lamp, which typically needs to be done only once or twice a year, depending on usage.

G+Series Premium UV water purifiers offer a safe, reliable, and cost-effective solution for ensuring clean and healthy drinking water, making them an excellent choice for households, businesses, and communities seeking to improve water quality and safety.

50 LPH COMMERCIAL WATER PURIFIER

WATER PURIFIER

ENHANCED WATER QUALITY

Commercial water purifiers employ advanced filtration technologies to remove impurities, contaminants, and pollutants from water, ensuring higher quality water for consumption or industrial use.

HEALTHIER WORK ENVIRONMENT

By providing clean and safe drinking water, commercial water purifiers contribute to a healthier work environment, reducing the risk of waterborne illnesses among employees and customers.

COST SAVINGS

Investing in a commercial water purifier can lead to long-term cost savings compared to purchasing bottled water or relying on conventional water sources that may require extensive treatment.
